PERSONAL PROJECTS

- **Portfolio Project** (*06/2016 - Present*)
  Portfolio website with details about my projects, my contact information, and me. Displaying personal and school projects using HTML, CSS, JS, PHP, MySQL, and C#

- **AS Capstone Project** (*07/2016 – 09/2016*)
  Capstone Project, where my teammate and I built a technology company website and an Electronic Health Record application, which a user can buy and download

- **Ciphered** (*11/2016 – Present*)
  Creating a web interface using Bulma framework, which allows user to encrypt and decrypt messages to send between friends, using different ciphers like Substitution Cipher, Vigenere Cipher, or ROT13.

EDUCATION

New England Institute of Technology, East Greenwich, RI
Associate in Science degree in Information Technology/Software Engineering - 09/2016
Bachelor of Science degree in Information Technology/Software Engineering - 2018

- **Accomplishments:** GPA 3.94, Dean's List every quarter, Phi Theta Kappa Honor Society

Activities

- **HackRI - Revolutionizing RIPTA** (*12/2/2016 – 12/4/2016*) – Team of 5 worked to build a Progressive Web App using Service Workers, which allows users to buy tickets, and find nearest Ripta Bus locations.
